

## PHP

### Photos:

Insert picture: ``

Insert picture and open up a form when clicked: `<a href="http://www.domain/suggest.php"> </a>`

### Hyperlinks:

`<a target="_blank" href="index.php"> Main Page</a> Result - Main Page`

`<ul><li><a href="index.php">Main Page</a></li></ul>` (bulleted)

Opens web browser to that page: `<a target="_blank" href="http://www.legacyfamilytree.com/"> Legacy Family Tree</a>`

### Dates:

`<?php echo "Last modified: " . date("F d, Y", getlastmod()); ?>` Result - Last modified: January 11, 2007

`<?php echo "Last modified: " . date("M d, y", getlastmod()); ?>` Result - Last modified: Jan 11, 07

`<?php $today = date("l, F j, Y"); echo "<font color=#676497 size=1>$today</font>\n"; ?>` Result - Thursday, January 11, 2007

### Fonts:

`<font color="#676497" face="Georgia" size="4"><b>Main Page</b></font>`

## HTML

### Photos:

Insert picture: `<p align="right"></p>`

Insert picture and open up a form when clicked: `<p style="text-align: center"> <a href="contact.htm"></a></p>`

### Hyperlinks:

`<a href="index.php">Main Page</a>`

<ul><li><a href="index.php">Main Page</a></li></ul> (bulleted)

Opens web browser to that page: <a target="\_blank" href="http://www.legacyfamilytree.com/">Legacy</a>

### **Dates:**

```
<SCRIPT LANGUAGE="Javascript">
<!--
var date = new Date(document.lastModified);
document.write("<I>Last Modified: " + (date.getMonth()+1) + "/"
+ date.getDate() + "/" + date.getYear() + "</I>");
// -->
</SCRIPT>
```

Result: *Last Modified: 1/11/2007*
